To Shodoshima, And A New You

In the heart of the Seto Inland Sea lies Shodoshima, its second biggest island. Blessed with a warm climate and nature in abundance, the locals have developed a rich culinary history centered on olives, soy sauce, soy preserves, and fine noodles. The island is home to many gorgeous vistas like Kankakei Gorge, one of Japan's three most beautiful valleys, and the celestial footpath known as Angel Road— all unique, all must-sees for any traveler.

Come soothe your tired soul among stunning island beaches and lush greenery with one of our combination cruise and island adventures.

Rest Stop Shodoshima Olive Park

2,000 olive trees dot the park grounds, forming a lush, photogenic orchard. Greek windmills watch over them, bringing a slice of the Mediterranean to this corner of the world.

Angel Road

Twice a day, the tide recedes and a sandy path to the island appears. Some say strolling across hand in hand will grant a couple their deepest wishes. It's a paradise for the true romantics. (Please be sure to check tide timetables.)

Kankakei Gorge

Celebrated as one of Japan's three most beautiful valleys. Ride the ropeway and witness from up high this majestic landscape, carved out by nature's hand over two million years.

Twenty-Four Eyes Movie Studio

Home to a movie set from its namesake, the hit 1954 drama Twenty-Four Eyes. Bathe in nostalgia in this authentic recreation of an early 20th century Japanese townscape. Everything here has been perfectly preserved down to the finest detail.
